## An Expensive Game For You!

If you see a Chair in our store marked \$3 and in another store you see the same chair marked \$1.98, your first conclusion is that the first store is high. Some merchants take advantage of this. They mark a ridiculously low price on things whose prices people can compare while shopping around. Then, on other things they boost the prices unreasonably high. You are misled by this, and you pay too much for the most of your goods. In this store everything is marked at a uniform small profit. Chairs are priced this way.

Child's golden oak finish Rocker \$1.50.  
Reed Rockers \$3.50.  
Solid Oak Rockers \$3.50.  
Leather upholstered Rockers \$10.  
Box seat Diners \$18.  
Morris Chairs, starting at \$12.50.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for literature.

Address P. J. CHENEY & CO., Toledo, O.  
Sold by all Druggists, 75c.  
Take Hall's Family Pills for constipation.

The largest gates in the world are being made at Pittsburgh for the Panama Canal. Any one of the ninety-two of them, for there are to be forty-six pairs in all, will be about as high as a six-story building, sixty-five feet wide and seven feet thick. The structural steel that will go to make them will weigh 60,000 tons, or more than eight times as much as was used to build the Eiffel Tower in Paris. The cost will be \$5,500,000.

## A Physician's Report on Tuberculosis Medicine

"Have used Eckman's Alternative several cases of tubercular glands of the neck, with excellent results every time. In one case it cost me \$50, for the gland was put on it only until the gland was range to be operated, and in a short time an operation was not needed. Suppose your records are just as mine are of old. You know my faith in it." Eckman's Alternative is effective in other forms. Read what Mrs. Garvin says:—  
Gentlemen: "I have gained twenty-two pounds since last February and my baby is in perfect health. She is now four months old. I have been waiting since she was born to see how I would get along. I am now doing all my work have been ever since she was four weeks old and I am steadily gaining. I do not cough or raise anything at all. I believe my lung trouble cured."

Last evening between 6 and 7 o'clock a spark from a passing C. and O. engine set fire to the brush and debris at the old gas works plant. The "Kinney Mac" was promptly on the spot and extinguished the blaze in short order, which is more evidence that the machine and Fire Department are all right.

## REV. THOMAS P. DEGMAN BACK HOME

The many friends of Rev. Thomas P. Degman, the beloved and popular Christian Church Minister, who makes his home on a picturesque farm at Springdale, on the classic waters of Cable creek, will be pleased to hear that the Reverend has returned home practically a new man after undergoing a successful but severe operation for a cancerous growth upon his right shoulder at a Cincinnati Hospital. ## MAY PROVE FATAL.

When will Mayville People Learn the Importance of It?

Backache is only a simple thing at first. But when you know 'tis from the kidneys; That serious kidney troubles follow; That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience. 'Tis the honest statement of a sufferer who was cured.

Thomas Ruark, East Second street, Vanceburg, Ky., says: "I suffered from kidney trouble and inflammation of the bladder for over ten years, some of the attacks being so severe that I really thought I would die. A complete retention of the kidney secretions existed and I called a doctor who drew the secretions from me with an instrument. None but those who have gone through this can imagine the suffering I endured. Some time ago I saw Doan's Kidney Pills advertised and I procured a box. Since using them I have had not had any trouble from my kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

to the fact that it is time to be thinking of coal about now. It is all very well to have a pretty parlor stove, but it's no good without the right kind of coal. If your stove is small, try some of our out coal in it. Then you'll have a "bully" fire in no time, with no clinkers, no chinking of coal in the feed, lighter coal for bigger stoves, of course.

## SPECIAL SERMON

"The Evil in Maysville and How to Remove It," will be my subject for a special sermon at the First M. E. Church, South, next Sunday at 7 p. m. This sermon is one of a series of sermons that I am preaching on Sunday evenings, on what I think are practical and important subjects. We again extend a special invitation to our Officials to come and hear this sermon, and a cordial invitation to everybody. In this sermon I will explain why I especially invite the Officials to be present.  
B. F. CHATHAM, Pastor.

## Today's Short Sermon

Activity is health and life. It is only by exercise that the muscles keep firm and true. And motion is the greatest nerve tonic there is. We heard some women talking about Mrs. — the other day, and how she had come out and got her health back by doing her own work. It set her muscles to going and gave her something to think about. It often happens that indolence and doing nothing seem to make one sound and healthy, but usually it only seems.

## HEAVY DOSE

At the last term of the Circuit Court Alec Wheatley was convicted on a petit larceny charge and given a thirty days' jail sentence. After a few days work in the rock quarry Alec became weary of his job and at an opportune time took French leave. He became careless and returned to his old haunts in the city and was picked up by Officer Fizer. Yesterday Judge Rice gave him the limit in cases of escaped prisoners, and sent him back to jail and the works for two hundred and twenty days—and the election only five days off. Just think what Alec has missed.

Mark Opening Sales of 1910 Crops at Maysville's Loose Leaf Tobacco Warehouses

A large crowd of interested spectators were present at the opening of the Maysville loose leaf market yesterday, and, although receipts of tobacco were light, due to the unfavorable handling weather, the tobacco offered for sale at both houses, quality and condition being considered, brought good prices.

The Farmers' Warehouse sold at an average of \$11.09. Low price, \$6; high price, \$18. Some of the individual crops sold here were—Lou Lindsay, Brown county; average, \$14.40. Emery Dillon, Mason county; average, \$11.92. R. H. Ousley, Fleming county; average, \$11.28.

The bidding was extremely active and sellers were perfectly satisfied with the prices received.

At the Tuck Ibo House over 6,000 pounds were sold in the loose leaf at an average of \$10.90 per hundred.

There were probably a hundred prominent tobacco men present yesterday at the sales, including some of the wealthiest farmers of this section.

Wonder if Colonel Roosevelt will tell the people about the high cost of writing?

The Mints have been busy throughout the month of October coining more than \$14,000,000, of which more than \$13,000,000 was in gold.

The total cash in the United States Treasury at the close of the month's business was \$1,759,673,952, an increase of about \$9,000,000. It appears that J. P. Morgan hasn't got all the money in the world.

At Washington an eminent Churchman declared that unless checked by the Church the spirit of prosperity will soon ruin the Nation. The greatest trouble of the people of the United States is their too great prosperity.

Then surely, Bro. CURRAN, you will lend us a few hundred only until spring.—Cynthia Log Cabin.

## Laxative Sent Free to Try

It may be taken for granted that there is no family of any size that goes very long without needing a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup Pepsin, which thousands of families are using successfully.

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, Pine Bluff, Ark., and Mr. George B. Turner, a lawyer of Harlan, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup Pepsin is that it is a mild, gentle laxative, tonic that does not gripe—effective and yet so mild that babies can take it. Its tonic ingredients invigorate the body and strengthen the stomach and bowel muscles so that they again do their work naturally.

If you have been a victim of salts, pills and strong cathartics you will discard them when you once use Syrup Pepsin. You can buy a fifty cent or one dollar bottle of any druggist, but before doing so you may want to try it free. If so, send your address to Dr. Caldwell and he will promptly forward a free sample bottle. Then, being convinced, do as others are doing and buy it in the regular way of your favorite druggist.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 611 Caldwell building, Monticello, Ill.

## The Minimum Charge.

One of the matters we want to take up is that of the service, or minimum charge, to electric customers.

As you know, the base rate for current is ten cents per kilowatt hour, but when your meter is installed, it is with the understanding that in no event will your monthly bills run below seventy-five cents, which is the minimum charge. The reason for this is not clear to all customers.

In the electric industry the fixed charges are unusually high and a company cannot supply current at a reasonable rate, unless each customer bears his proportionate share of the fixed charges.

You see, it is impossible for an electric company to regulate the demand of its customers. A telephone company can make a subscriber wait until a wire is disengaged; a street railroad can require a passenger to take the next car—

But an electric company must be prepared at all times to meet the maximum demand of all of its customers.

For example: You might use your lights only one hour out of the month. But throughout each of the other 719 hours, the company must maintain your part of the plant and pay interest on that part of the investment that your service requires.

More than that, your meter costs just as much to manufacture and install and it costs just as much to keep your accounts and maintain your proportion of the office expenses as it does to care for the largest consumer.

It can readily be appreciated, therefore, that, were it not for the minimum charge, the customer whose consumption exceeds that charge, would be paying more than his proportionate share of the fixed charges and this would be unfair to you as well as to him.

Therefore it is, as we said above, this minimum charge that enables an electric company, especially in a city the size of Maysville, to give service at rates that are fair and equitable to all classes of consumers.

Now, those customers who use less current than the minimum charge covers, are making their service unnecessarily expensive to themselves and are not receiving all that they are entitled to.

And the way to find out whether you are using all that this charge calls for is to read your meter. This is very simple.

If you find that you are not utilizing all of the current available under the minimum charge for lighting purposes, there are ways in which you can get the full benefit of your service by using electricity in dozens of household occupations.
